

## PREPARED TO SPIKE HIS WINE

Search Warrant Uncovers Still and Alcohol Supply.

## MUCH INTOXICATION

Thirty-two Barrels of Perfectly Good Grape Wine Is Destroyed.

## Crank Lecturer Told to Leave the City on First Outgoing Train

ADA, June 2.—A crank lecturer was raised here Saturday night when a group of intelligent citizens crowded a would-be reformer from the streets of the city. His name could not be learned, but he persisted in making his so-called "no-alcohol" remarks to the people who had gathered around him, shouting him down. The police chief advised the man to leave town on the first train, which he did and no word concerning him has been heard since.

## PLENTY OF WATER SECURED

Double Pumping Capacity and Avert Danger of Shortage.

ADA, June 2.—A solution to the Ada water problem has been found and the water commissioners are now assured that the water supply for the city will not be endangered for some time at least. With the rapid growth and the increased demand for water at the present state of weather, the former supply was not enough, making it necessary to find another place to get water.

This was done from an operation just put into the Dwyer's Mill cutout. The new reservoir has been tested and found a success. Water is now being pumped into it as fast as is possible and as soon as the contractors test the pumps and find them in good condition the water will be pumped directly from the reservoir. Other plans are being made for the furtherance of the project and it is hoped that the danger of water shortage will be averted this summer.

## TO ENLARGE CURRICULUM

School of Mines Will Take on Additional Courses.

ADA, June 2.—The World.

ADA, June 2.—Barbershop owners are now members of the Kansas City Barber Association and have voted a regular weekly class for the summer session in the association's headquarters, Atlantic, Indiana. Independence, Parsons andola, a committee of ladies has been selected for the summer visiting tour in Barberville on June 12, 13, 14, July 10, August 7 and September 4.

The McMurrow cup is a laurel wreath with a ribbon of white silk and a small gold star in the center. The two players who won the trophy in Barberville on June 6 and 7 were Charles E. Adams and D. P. Wilson.

## QUEEN WILL GET THE INVITATION

Marie of Rumania Given Chance to See What West Is Like.

POONCA CITY, June 2.—The invitation extended by the Ponca City chamber of commerce to Marie of Rumania competing for the title of Miss America, was accepted by the former queen of the United States, who reached Rumania's capital Bucharest, and will be presented personally to the monarch by the American chargé d'affaires, Edward Goetz Green, now at Bucharest, who says "you shall see that your invitation will be honored."

In the interview, the young queen of the United States, Queen Marie, was asked if she desired to go to America, and she replied, "Yes." She said she had been told that the Indians, the savages and their stumps, buffalo horns, primitive cattle ranges and other things that have gone to make up western life. Immediately upon her return to the United States, she will visit the Ponca City fair, where she will be welcomed by the chamber of commerce, the city officials and the public.

She will be given a room at the Ponca City Hotel.

ADA, June 2.—A solution to the Ada water problem has been found and the water commissioners are now assured that the water supply for the city will not be endangered for some time at least. With the rapid growth and the increased demand for water at the present state of weather, the former supply was not enough, making it necessary to find another place to get water.

This was done from an operation just put into the Dwyer's Mill cutout. The new reservoir has been tested and found a success. Water is now being pumped into it as fast as is possible and as soon as the contractors test the pumps and find them in good condition the water will be pumped directly from the reservoir. Other plans are being made for the furtherance of the project and it is hoped that the danger of water shortage will be averted this summer.

ADA, June 2.—The World.

ADA, June 2.—The 1000 apple trees that make up the orchard on the 100 ranch here will produce another record breaking crop this year, according to Col. Joe C. Miller, the ranch agricultural manager. Miller's statement came today in answer to press reports from Kansas and other places declaring that the apple crop is ruined along with other fruit crops because of the late frosts. Colonel Miller's statement is borne out by other orchards in this section, all of which show a beautiful apple crop for this year.

Miller says the ranch will have a beautiful grape crop again this year and a fairly good plum crop, but nothing to speak of from other fruits. However, the ranch has 6000 cotton plants out from which first cutting of heads is now being made for market.

Expect Big Attendance.

POONCA CITY, June 2.—The joined conference of the various associations at the Children's Indian school from June 2 to 7, includes will be the most largely attended of any in recent years. This is because Ruth M. Hale has a feature this year in an elaborate performance, in which approximately 150 of the students will participate. This occurs at 8 o'clock on Monday evening, June 6, following the annual military competition, drill and rifle practice.

There are now 50 Indian pupils in the school, 50 more girls than boys.

Stein-Bloch Summer Suits

are far ahead of any summer clothing made.

And best of all they cost very little more than ordinary clothes.
